Customer Profile Analysis

Our customer profile analysis will identify key demographics of your current customers and identify counts of potential prospects with similar demographics. You will be able to use the analysis to plan your marketing strategy to new prospects and grow your business.

NCOA^{Link}®

Each month, American Church Lists' entire database is processed through the U.S. Postal Service's National Change of Address (NCOA^{Link}®), which updates addresses of those people or businesses that have recently moved. This process ensures you get the best delivery rate on your direct marketing piece.

Data Processing & Enhancement

We offer comprehensive data processing services to help you clean and update your lists. We can also append more than 65 demographic choices to your list, including telephone numbers, email addresses, contact name and more.
